

CLIMATE CHANGE

Communicating Ecological Responsibility in a Multicultural Environment: Communication Techniques for Mobilizing Youth Action on Climate Change

Objectives:

- * To raise awareness of climate change and climate justice
- * To develop youth leaders skills to implement interactive learning methods in youth work on climate change, to raise awareness and promote mobilization on climate change action
- * To raise awareness of global climate solidarity and the EU's climate change agenda, as well as on the several but common national and individual responsibilities in tackling climate change
- * To promote the use of interactive communication, framing techniques and multimedia tools in youth action

Activities:

- * Training course for trainers and workshops on global climate change
- * People-to-people events, such as simulation games and youth-friendly awareness raising activities will allow youth leaders to work with local communities and get first-hand experience with international youth mobilization
- * Workshops to improve skills for using multimedia resources and interactive learning methods for meaningful youth work
- * Networks creation at transnational level within Youth Ngo's, Educational Organizations and Young People from Europe, South Asia and Africa

Follow the project [IN ACTION](#)

Results:

- * Video edited by young participants

Partners:

- * Coordinator: Dobruja Agrarian and Business School (Bulgaria)
- * Stowarzyszenie Edukacji Nieformalnej MERITUM (Poland)
- * Kenya Voluntary Development Association (Kenya)
