

ADVANCING AND REASSESSING ORAL SKILLS FOR ENGLISH

4th newsletter

June 2022

AROSE is an Erasmus+ project funded by the European Union that aims to improve secondary-school students' oral English competences (speaking and listening). AROSE platform is an online tool to help teachers evaluate spoken reception, production and interaction.

AROSE PLATFORM IS READY TO USE!

On May 31st the multiplier event took place in Murcia. AROSE platform was presented and explained to secondary-school teachers. The project aims to influence the development of teachers' evaluation skills to enhance reflection on the practice, and to provide a better understanding of how students' success can benefit from the implementation of competency assessment.

Piloting ended and the platform was improved with the suggestions from teachers.

The final platform could be found here:

<https://arose.programaseducativos.es/>

- **Oral skills assessment model:** A model about the assessment of the oral competences in English as a second language for secondary-school students.
- **Resources.** A catalogue of open resources and resources created in the frame of AROSE project to assess communicative language activities.
- **AROSE platform.** A web tool to facilitate the assessment of these activities at a secondary school level.
- **Toolkit.** A toolkit for secondary-school teachers to help them use these digital resources.
- **Rubrics.** To help the assessment of communicative language activities.

What is AROSE platform?

AROSE is a project founded by Erasmus+ to promote the assessment of English oral skills in secondary students. Here you can register yourself and access to the digital platform developed in this project.

Why is AROSE useful?

This digital tool will be useful to assess oral skills in A2 and B2 levels in English. You can use all the AROSE resources and you will be able to share the new ones you can create.

What tools are there in AROSE

1. A digital repository of public Resources to assess English oral skills. Feel free to add your own.
2. A Dashboard where you can watch a brief summary of your state in the platform.
3. A tool to register and manage your Students
4. A tool to create and manage Rubrics for assessment
5. A Gradebook to manage the marks
6. A Forum and a Chat to connect with other secondary teachers
