

ADVANCING AND REASSESSING ORAL SKILLS FOR ENGLISH

3rd newsletter
March 2022

AROSE is an Erasmus+ project funded by the European Union and aims at improving secondary-school students oral English competences (speaking and listening). AROSE platform is an online tool to help teachers to evaluate oral skills.

AROSE aims to create an oral-competency assessment model based on the Common European Framework Reference for Languages and a web assessment tool to improve oral English skills.

Oral skills assessment model

In recent months, within the framework of the project, a model for assessing oral skills in English has been developed and has been presented and disseminated. The resources created in the first phase of the project have been uploaded to the platform.

We already have the platform!

We have worked hard to present the AROSE platform, an online space where teachers have a multitude of resources to assess their students. In addition to the possibility of using rubrics, made by the project, or that they can design themselves. We also have the platform tutorial and have started with the evaluation of the platform. We are

starting the third and last phase, where, through a piloting system, secondary school teachers will use it with their students in schools.

Training course

The pandemic does not stop us. We were able to do the first part of the teacher training through webinars. The second part will take place in Palermo during the month of April.

Much to come

The project is in its final phase, which is one of the most productive. A multiplier event has taken place in Turkey and a final one will take place in Murcia before the summer. We are in the process of disseminating the great experience of this project.

What is AROSE platform?

AROSE is a project founded by Erasmus+ to promote the assessment of English oral skills in secondary students. Here you can register yourself and access to the digital platform developed in this project.

Why is AROSE useful?

This digital tool will be useful to assess oral skills in A2 and B2 levels in English. You can use all the AROSE resources and you will be able to share the new ones you can create.

What tools are there in AROSE

1. A digital repository of public Resources to assess English oral skills. Feel free to add your own.
2. A Dashboard where you can watch a brief summary of your state in the platform.
3. A tool to register and manage your Students
4. A tool to create and manage Rubrics for assessment
5. A Gradebook to manage the marks
6. A Forum and a Chat to connect with other secondary teachers
