

RAVT Real and Virtual Textures

Objectives:

- * To launch collaboration training tools for people working with adults with disabilities on how to promote teleworking (distance working / working from home)
- * To promote training opportunities using ICT
- * To develop the personal and professional awareness in the management of the blended e-learning models supported by a telematic platform

Activities:

- * Establishment of staff training modules
- * Construction of new training models that consider the formative and operational requirements of the management of telework contexts for disabled adults
- * Testing of new training environments – face-to-face and online through e-learning
- * Publication of RAVT training modules

Results:

- * Manual for trainers and project managers on ICT competencies in order to create teleworking opportunities

Partner:

- * Coordinator: Centre for the Creative Development – ‘Danilo Dolci’ (Italy)
- * SPKC Public Agency of Tukums Region Social Assistance Coordination Center (Latvia)
- * Toucan Europe Ltd (United Kingdom)
- * E2000 (United Kingdom)
- * Danmar Computers (Poland)

Date of project: 01/10/2005 – 30/09/2007

DG of reference: DG EAC, Education and Training, Lifelong Learning Programme – [Grundtvig Multilateral](#)
