

SECUTE

Security Training & Education

Objectives:

- * To educate a nucleus of future leaders, managers, security officers, politicians and experts in the security area, which speak a common security language, are well trained in security and emergency management and are fit for international security oriented policy and business management
- * Offer education, training and vocational specialization in the field of the Protection of Critical Facilities
- * Promote a shared sensibility at international level, create a basis for the knowledge related to the risks and the threats and diffuse the information about the behaviour for the security

Activities:

- * Italian and English online course about Security of the Critical Facilities
- * A series of training workshops realized in Palermo and in Malta for professionals working in this field

Partners:

- * Coordinator: Euro-Mediterranean Initiative for Technology and Innovation (Malta)
- * Fraunhofer-Institut Sichere Informationstechnologie (Germany)
- * World Centre for New Thinking (Malta)

Date of project: 01/12/2007 – 30/11/2009
