www.speakout-reachout.eu

Objectives:

The project Speak out! – Reach out! aims at stimulating the personal development of young people with fewer opportunities and at providing them with skills making active participation possible. The participants produce a four-language online magazine with radio casts (audio podcasts)

Specific objectives:

- * To promote young people's active citizenship in general and their European citizenship in particular
- * To develop solidarity and promote tolerance among young people, in particular in order to foster social cohesion in the European Union
- * To foster mutual understanding between young people in different countries
- * To contribute to developing the quality of support systems for youth activities and the capabilities of civil society organisations in the youth field
- * To promote European cooperation in the youth field

Activities:

By interviewing people, writing articles and producing audio podcasts each group deals with the following two topics "What has Europe to do with me?" and "How can I make a difference?". As a preparation were organized two workshops (webpage design and audio podcasting) for a group of participants and youth workers from each country who afterwards peer-educated their local team

Results:

- * Handbook of experiences, technical instructions and recommendations for the development of audio podcasts with youth with fewer opportunities
