Supporting Vocational Teachers And Trainers In E-Learning

www.evet2edu.eu

Objectives:

- * To adapt an e-learning course for educators created in Poland to VET teachers' and trainers' learning needs and requirements in other EU countries
- * To support trainers and teachers from the VET sector in the implementation of dynamic, open and innovative methods by adapting and transferring validated e-learning courses for vocational schools and the training sector

Activities:

- * Needs analysis to understand VET trainers' and teachers' needs
- * Adapt e-learning course according to needs analysis outcomes, therefore enhancing it with national and internationally-relevant content
- * Introduce different tools to the process (eg. videos, podcasts, videoconferences)
- * Promote the use of the adapted version in partner countries

*Follow the project **IN ACTION***

Results:

- * (e)VET2EDU "[How to design and facilitate an online course in the VET context](#)". This course enables students to learn methods and tools of online learning. After completing the course the student will be able to design and structure an on-line course for VET subjects (E-course in txt format) [EN | IT | CS | LT | SL | ES | NO | PL | HR]
- * The [Facilitator's Handbook for e-learning course](#): to provide support for trainers and educators in VET who are planning to implement the course into a training offer of own institution and moderate the course. The Handbook was developed on the basis of the experience gained during pilot phase of the course. It may serve as a reference material for the facilitator who finds there various advice and tips on actions that may be undertaken to facilitate the course in efficient way [EN | IT | CS | LT | SL | ES | NO | PL | HR]
