

Building skills for civic engagement!

Welcome! Stay up-to-date with the latest initiatives aimed at empowering adult learners and boosting democratic participation through practical resources and local engagement.

Our recent efforts have focused on practical tools to **foster democratic literacy**. With tools like the **LifeComp Cards**, we're equipping adult learners to develop personal, social, and learning competences essential for active civic participation.

Across Europe, the Citizens Xelerator pilots have been making a tangible impact, with 8 European countries implementing the LifeComp Cards and **Citizens Xelerator Model and Kit** to drive civic participation. Participants are focusing on social empathy and local action, community building and hands-on activities. These initiatives highlight the flexibility and effectiveness of the Citizens Xelerator tools in diverse educational and social contexts, **empowering adults** to engage more deeply in democratic processes.

Building skills for civic engagement!

Join the Network!

We invite institutions passionate about adult education, civic engagement, and literacy to join the **Citizens Xelerator Network**.

By becoming a part of this community, your organization will gain access to a suite of tools, resources, and collaborative opportunities designed to foster democratic participation and empower adult learners across Europe.

Together, we can create innovative solutions, share best practices, and drive change at national and international level.

Be a catalyst for civic empowerment—join us today and contribute to building more inclusive, engaged communities!

Peer-learning webinar

Our peer-learning webinar enabled adult education professionals to exchange strategies on integrating the Citizens Xelerator materials into their teaching practices.

This interactive session highlighted how the Citizens Xelerator Model and Kit can be a transformative tool in promoting personal, social, and learning growth, empowering individuals to become active contributors to their communities.

Building skills for civic engagement!

Citizens Xelerator resources

Explore our growing toolkit designed for adult learners and educators:

- **LifeComp cards** - nine cards for personal, social, and learning competences
