

Online Professional Development in Second Chance Education

EPODS supports teachers/trainers in Second Chance Education in their continuous professional development. It assists these educators to set their own development goals, take courses and monitor their progress. In this way, the EPODS online professional development services enable teachers/trainers to maintain the high level of support to learners. E-learning courses and an e-learning creation tool further support the accessible and continuous learning of teachers/trainers.

The platform

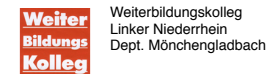

The platform SecondChanceEducation.eu focuses on the quality improvement of Second Chance Education, paying particular attention to the development of a European online knowledge and quality centre. On this platform digital assessment tools, good practices and trainings are available. An online community of European teachers and trainers guides the development on facebook.com/secondchanceeducation and twitter.com/2ndChanceEdu.

About EPODS

EPODS promotes European integration of the continuous professional development of teachers/trainers in Second Chance Education and sets up an organic growing database connecting tools, schools, teachers/trainers and beneficiaries. EPODS is part of SecondChanceEducation.eu.
