

Make room for empowerment!

Anti-trafficking, Gender and Protection in the context of Safe Spaces for Women and Girls

About

Join our online capacity building sessions and open seminar to improve your knowledge on the Women and Girls Safe Spaces (WGSS) model. This training has been designed by the IRC ([Italy](#) and [Germany](#)), [CESIE](#) (Italy) and [Centro Penc](#) (Italy) with the main goal of providing information on the most important concepts to be explored when launching a WGSS, such as gender, gender-based violence, protection, psychological support, and cross-cultural mediation, women and girls' empowerment, with a special focus on the identification of (potential) victims of trafficking and other forms of violence in a migration context.

The capacity building curriculum has been organized in the scope of the [SAFE HUT-Holding safe spaces for women and girls' empowerment](#) project aimed at the launch of new WGSS in Greece, Lithuania, Bulgaria and Romania, starting from the expertise and the experience of IRC and Centro Penc.

The 7 sessions of this capacity building will be delivered online between **31st of October and 28th of November** with one or two sessions every week. The learning cycle will end with an Online Public Seminar to explore the challenges and the best practices when building up safe spaces.

Who is it aimed at?

This capacity building is aimed at all professionals working in the field of migration within reception centers, associations, and local institutions in the European countries interested in building their capacity on the proposed topics.

How to participate

Each session has a **link for the registration**, that allows you to access the meeting room. Registration and participation are free of charge.

Although we recommend attending the whole training, it's possible to join single sessions separately. Deadline for registration is 25 October 2023

All sessions will be conducted in **English**.
